VISIBILITY:

IF YOU CAN'T SEE IT, **YOU CAN'T STOP IT.**

With mobile, cloud and the internet of things creating new openings for cyber threats, your organization is at greater risk than ever. So you need more visibility than ever to detect threats and respond to them effectively.

86%

of organizations collect, monitor or analyze log data and endpoint data…

50%

of IT leaders worry about understanding the full scope of an attack

74%

of organizations collect, monitor or analyze data from network packets…

48%

of IT leaders are concerned about their ability to detect an attack in progress

…but only

10%

say they're able to correlate data from different sources very well
